Upon return, the Policy will terminate forthwith and all rights, benefits and interests under the Policy will cease immediately. On cancellation of the Policy within the above-mentioned Free Look period, the Company shall refund premiums paid after deducting the proportionate risk premium for the period of cover and the expenses incurred by the Company for medical expenses (if any) and stamp duty.

Note: Secured Income paid, if any, shall be recovered.

D.2 Discontinuance Of Premium

D.2.1 Discontinuance Before Payment Of First Policy Year's Premium In Full

On non-payment of Premium within Grace Period, before payment of first Policy Year's premiums in full, the Policy shall lapse and all the benefits including life insurance cover will terminate. Secured Income will not be paid when the Policy is in lapse status. The Policyholder can apply for revival of the Policy within the Revival Period and before the expiry of the Policy term to reinstate the lapsed Policy, subject to Company's 'Board Approved Underwriting Policy' and payment of all outstanding premiums (including taxes) (if any) with applicable interest thereon.

If a lapsed Policy is not reinstated within the Revival Period and before the expiry of Policy Term it will automatically stand terminated. No other benefit will be payable or accrued, except for the accumulated Secured Income (if any), and if not paid earlier, shall be payable as a lumpsum.

D.2.2 Discontinuance After Payment Of First Policy Year's Premium In Full

On non-payment of Premium any time after payment of first Policy year's Premiums in full, the Policy will not lapse but will continue as a reduced paid-up Policy upon expiry of grace period till termination due to death, surrender or Maturity, whichever is earlier.

D.3 Reduced Paid-up Benefit

In case of reduced paid-up Policy, the Death Benefit, Maturity Benefit and Survival Benefits shall be revised as follows:

1. **Survival Benefit:** Once the Policy becomes reduced paid-up, Paid-Up Secured Income Payouts will be payable during the Policy Term.

Paid Up Secured Income Payouts = (Total Number of Premiums paid / Total Number of Premiums payable over the Policy Term) x Secured Income Payout

This will be applicable for all payouts of Secured Income.

The reduced paid-up Secured Income payouts will be adjusted for any extra payouts made before the policy is converted to reduced paid-up.

The calculation of adjustment is described below in “Calculation of adjustments applicable on reduced paid-up survival/maturity benefits”.

2. Maturity Benefit: The Maturity Benefit for a reduced paid-up Policy shall be equal to the Paid-Up Maturity Benefit.

Where,

<<For Flexi Start Option Paid- up Maturity Benefit is as defined below:

a. Paid Up Guaranteed Income Payouts (as defined below) shall be payable throughout the Income Period.

Paid Up Guaranteed Income Payouts = (Total Number of Premiums paid / Total Number of Premiums payable over the Policy Term) x Guaranteed Income Payouts.

b. Further, in case Return of Premium (RoP) benefit is chosen then Total Premiums Paid as on date the policy becomes paid-up shall be paid at the end of Income Period along with Paid-up Loyalty Additions.

Paid-up Loyalty Additions = 10% * Total Premiums Paid>>

<<For Extended Benefit Option Paid-up Maturity Benefit shall be equal to Total Premiums Paid as on date the policy becomes paid-up at Maturity.>>

The Paid-up Maturity Benefit will be adjusted for any extra payouts made before the policy is converted to reduced paid-up. The calculation of reduced paid up Maturity Benefit is described below in “Calculation of adjustments applicable on reduced paid-up survival/maturity benefits”.

Calculation of adjustments applicable on reduced paid-up survival/maturity benefits:

Once the policy is converted to paid-up all the benefits will be reduced proportionately to the extent of “Total Number of Premiums paid (t) / Total Number of Premiums payable over the Policy Term (n)”. This is applicable for all income payouts including payouts made prior to policy being converted to reduced-paid-up. This shall result in recovery of excess income paid over and above the applicable reduced paid-up income. Hence, the future reduced paid-up Income payouts will be adjusted for such extra payouts made before the policy is converted to reduced paid-up. The reduced paid-up Income Payout after adjustment would be calculated as -

Reduced paid-up Income (before adjustment) less Adjustment value

Where the Adjustment value i.e. the amount to be adjusted would be calculated using the formula provided below:

For Deferment Year = 0

$$\frac{([\text{Original Secured Income Amount less Paid-up Secured Income Amount}] * \text{Number of Secured Income payouts made})}{(\text{Number of outstanding Secured Income payouts during PPT} + 2 * N)}$$

Where N = Number of Income Payouts in a year based on current income frequency opted by Policyholder

<<For Deferment Year > 0

$$\frac{([Original\ Secured\ Income\ Amount\ less\ Paid-up\ Secured\ Income\ Amount] * Number\ of\ Secured\ Income\ payouts\ made)}{(Number\ of\ outstanding\ Secured\ Income\ payouts\ during\ PPT)}$$

In case of Flexi Start plan option, this amount will be adjusted from both Reduced paid-up Secured Income and Reduced paid-up Guaranteed Income Payout.>>

<<In case of Extended Benefit Cover plan option, this amount will be adjusted from Reduced paid-up Secured Income in case of limited pay policies and from Reduced paid-up Secured Income and ROP in case of regular premium policies.>>

The adjustment to the paid-up benefit stops once the excess income paid is fully recovered.

Accumulated Secured Income payouts (if any), if not paid earlier will also be paid as a lump sum at death or at maturity as applicable.

3.Death Benefit: In case of reduced paid-up policy if the Life Assured dies before the Date of Maturity, We will pay to the Claimant an amount equal to Paid-Up Sum Assured on Death.

Where,

$$\text{Paid-Up Sum Assured on Death} = (\text{Total Number of Premiums paid} / \text{Total Number of Premiums payable over the Policy Term}) \times \text{Sum Assured on Death}$$

The Death Benefit for Reduced paid-up policies at no time shall be less than 105% of Total Premiums Paid till the date of death.

A reduced paid-Up Policy can also be surrendered at any time. The benefit payable will be in accordance with the benefit payable on surrender as mentioned in section D.5.

D.4 Revival of the Policy

A Policyholder will have five consecutive complete years from the due date of first unpaid premium and before the expiry of Policy Term, to revive the lapsed or reduced paid-Up Policy.

The revival will be subject to the 'Board Approved Underwriting Policy of the Company' and payment of all outstanding premiums (including taxes) (if any) with applicable interest, if any, thereon. The revival interest rate for FY << 2025-26>> is << 8.50% >> p.a. compounded annually.

The interest rate shall not exceed the yield to maturity on 10-year G-Sec + 200 basis points rounded to nearest 50 basis points. G-Sec rates will be taken from www.fbil.org.in. The interest rate will be revised at the beginning of each Financial Year. Any change in the basis of determination of this interest rate will be subject to approval from IRDAI, if applicable.

Upon revival, the Policyholder would be eligible for all benefits in full in line with inforce policy. In case no revival request is received from the Policyholder during the Revival Period, and the Policy has not acquired reduced paid-up status, the Policy will terminate.

Riders cannot be revived independently and can only be revived along with the revival of the base product.

D.5 Surrender Benefit

Surrender value shall become payable after completion of first policy year provided one full years' premium has been received. On surrender, higher of Guaranteed Surrender Value (GSV) or Special Surrender Value (SSV) will be paid as the Surrender Value (SV).

Any accumulated Secured Income Payouts, if not paid earlier shall be payable as a lump sum.

Guaranteed Surrender Value (GSV):

The Guaranteed Surrender Value (GSV) is calculated as follows:

$\text{GSV factor} * \text{Total Premiums Paid} - \text{Secured Income Paid till date}$

Guaranteed Surrender shall become payable after payment of two consecutive years' premium.

The GSV factors are guaranteed throughout the Policy Term. The GSV factor will depend on the year of surrender as per Annexure 1.

Special Surrender Value (SSV):

The Company shall declare Special Surrender Value (SSV), the factors for which will be decided by the Company from time to time.

SSV will be equal to the Expected Present Value (EPV) of Paid-Up benefits.

Expected present value of paid-up benefits shall be calculated as -

$\llcorner\text{For Flexi Start Option: Paid-up Sum Assured on Death} * F1 + \text{Lump Sum Maturity Benefit} * F2 + \text{Paid up future Secured Income Payouts} * F3$

Where Lump Sum Maturity Benefit is calculated as sum of following components:

- Present Value of Total Premiums Paid if RoP is opted
- Present Value of Paid-up Loyalty Benefit if RoP is opted and
- Present Value of Paid-Up Guaranteed Income Payouts

The above present values are calculated as on date of maturity and the discounting rate used in calculating maturity benefit is specified in section D.8

The paid-up factors (F1, F2 and F3) will depend on the years remaining to maturity, attained age and deferment year.>>

$\llcorner\text{For Extended Benefit Option: Paid-up Sum Assured on Death} * F1 + \text{Total Premiums Paid} * F2 + \text{Paid-Up future Secured Income Payouts} * F3$

The paid-up factors (F1, F2 and F3) will depend on the years remaining to maturity and attained age.>>

The SSV factors will be reviewed annually in line with IRDAI Master Circular on Life Insurance Products (Ref: No. IRDAI/ACTL/MSTCIR/ MISC/89/6/2024) dated 12th June, 2024 and any subsequent circulars issued by IRDAI in this regard.

Following formula will be applicable for calculating Special Surrender Value Factor (SSVF) in case of Policy surrender between any two Policy Years:

$$SSVF(t+x) = SSVF(t) + (SSVF(t+1) - SSVF(t)) * (x/365.25)$$

Where,

t: Number of completed Policy Years

x: no of days till date of surrender from the last Policy anniversary

SSVF(t): The surrender value factor as at time point *t*.

In such a case, the Secured Income Payout applicable for first Policy Year when it is due, would be calculated by pro-rating the annual rate by the number of days between the policy inception date and the Special Date chosen by You. All future Secured Income Payouts shall be payable on the chosen Special Date and shall be of the original amount except for the last Policy Year where it would be calculated by pro-rating the annual rate by the number of days between the special date and Date of Maturity.

<<Similar calculations will be followed for the first and the last Guaranteed Income Payouts.>>

6. For In-force and fully paid-up policies, the policy will not be foreclosed if the outstanding loan amount (including Interest) exceeds the Surrender Value.

<<7. At maturity, if the loan is still outstanding, the policy will be terminated by paying the present value (PV) of the Guaranteed Income Payouts and applicable RoP (including Additional Loyalty benefit),

(if any) at the end of the Income Period less the outstanding policy loan & interest. The interest rate used for discounting the Guaranteed Income Payouts is mentioned in section D.8.
